Exhale

Rave the Reqviem

I'm not in it for solution
Or to advertise for peace
I'm only in it for the blood rush
As my hatred is unleashed
I'm only in it for the hope
That they'll retaliate me
So I can justify my pleasure
In this slaughter ecstasy

I'm gonna scream you're disgusting
You're the origin of plague
Strip you naked
Make a public display of your shame
I'm gonna spit in your face
So you will hate me too
Because the worse you get
The better I look beside you

Rape their mothers as they watch
So they can see democracy
Wrap their lips around your cock
So they can feel democracy
If you think I fight for freedom
You've misunderstood me
Because democracy is only for
Those who think like me

I'm gonna scream you're disgusting
You're the origin of plague
Strip you naked
Make a public display of your shame
I'm gonna spit in your face
So you will hate me too
Because the worse you get
The better I look beside you

I'm gonna scream you're disgusting
You're the origin of plague
Strip you naked
Make a public display of your shame
I'm gonna spit in your face
So you will hate me too
Because the worse you get
The better I look beside you
