

## Nani's Interlude

Raveena

When we get old, we are just waiting that death is coming near.  
Because it will happen one day. We don't know what day and how  
it will happen. So, I have seen that gone suddenly, my son gone.  
I never thought that I will stay longer. I always thought that  
at my husband will stay longer because his family history is going  
above the hundred years. I would think that he would be [?]  
. So you never know. We should be thankful for every moment and  
spend more happy time, no regrets you'll be dead. You will love  
this life more, you will love this life more.
