

Runaway

Raven-Symoné

I have been afraid
I had my doubts about everything
Used to believe you would understand me
Cause the sun growing through the pain
Knew you'd be the one I would run to
When I needed a friend
And You are my best
here to the end
And I know you'll understand I run

Run from here I
Don't wanna go all this way
Hope you understand what I am feeling
Sometimes I wanna run away
I know you will still be there
You will still be there
For me when I run away

So hard to please
Try to make myself what and they want me to be
But you love me just the way that I am
I know that I've changed
But if I fall down
You have thought me to get back up again
You are my friend
Here till the end
And I know you will understand

Run from here
I don't wanna go all this way
Hope you understand what I am feeling
Sometimes I wanna run away
I know you will still be there
You will still be there
For me when I run away

Run away
Sometimes I wanna break down and cry
Sometimes I wanna ask myself why
But I made it this far
Because of all that you are to me
