

# Crazy World

Raven

whoa

whoa

Violents and downbeats panic in the street

Anger and frustration boiling the blood

Drain all your confidence like water from the tap

You are screaming but you never rule the school

Take your chances in this crazy world, live in fear

Don't hesitate, you gotta concentrate any ounce of fear

While we are stripping back you make me feel so good

Twisting my mind like a pig on a spit

I'm just running out of time and time again

Black sparing[?] like a epileptic fit

Take your chances in the crazy world, live in fear

Don't hesitate, you gotta concentrate any ounce of fear

You can't go down

You waste your time

You want the world

I take my chance

You waste no time

I want my yell

I look around and I just lose control of my senses!

Tripping at my mind and at my soul defenceless!

[?] putting the risk to accept were never strong with a  
view

Way to play it on my mind and tell you what to do

We gotta get out of this place and we're are game and  
will

I shake hands with the sick you should have seen them!

Take your chances in a crazy world, live in fear

Don't hesitate, you gotta concentrate any ounce!

OUNCE!

GET OUT OF HERE!!
