

Fly away

Ravenheart

See miracles on every time
For one day the time is mine
Leaving time of wasted years
Trying to hide your fears

Fly away to the rainbow in the sky
Let your dreams come true
Take my hand and we will fly so high
Till the end of time

Leaving darkness is late
It's your own world you can create
So don't let this change go by
It's the only way you'll never die

Fly away to the rainbow in the sky
Let your dreams come true
Take my hand and we will fly so high
Till the end of time

Fly away to the rainbow in the sky
Let your dreams come true

Shine on little star
Shine on for everyone
Shine into our hearts
Shine on we ride into the sun
We live for every moment before the moment's gone

Fly away to the rainbow in the sky
Let your dreams come true
Take my hand and we will fly so high
Till the end of time

Fly away

Shine on little star
Shine on for everyone
Shine into our hearts
Shine on we ride into the sun
We live for every moment before the moment's gone
