Fortune favours the bold, or so we've all be told
'Cause this life is only what you make it
But I've seen the fire, you're burning heart's desire
If you want it you're gonna have to take it

If you're gonna do something wrong, better make sure you get it
 right

You're (never going to)
Find (everything that you)
Need (when you know that)
Nothing comes for free
And you'll find it's rarely worth the cost
But if (you're gonna get what you)
Want (and never willing to)
Take (without regretting)
The choices that you make
If you're not playing to win then you've already lost

If you're gonna do something wrong, better make sure you get it
 right
