

# Nightmare

Ravenscode

Someone's here, chasing me  
And I want to, be safe and free  
His darkness finds me  
But he wants to play

I'm looking backwards  
I'm fighting for my life  
I can't escape this  
It gets me late at night  
The voices screaming  
I lose all signs of fear  
Will someone wake me,  
From this nightmare?

I'm trapped inside  
His cruel world  
And his chilling laugh  
Makes me curl

No matter where I run  
I can feel him with me  
And I scream out, "Please!  
Someone help me!"

I'm looking backwards  
I'm fighting for my life  
I can't escape this  
It gets me late at night  
The voices screaming  
I lose all signs of fear  
Will someone wake me,  
From this nightmare?

It's haunting, it's killing me  
I feel heavy, my head is spinning round and round  
You can't stop it 'cause I control it  
This is how it goes (from this nightmare!)

I'm looking backwards  
I'm fighting for my life  
I can't escape this  
It gets me late at night  
The voices screaming  
I lose all signs of fear  
Will someone wake me,  
From this nightmare?

No matter where I run  
I can feel him with me  
And I scream out, "Please!  
Someone help me!"
