

# No Way Out

Ravenscode

Tossing and turning as I lay here  
With a thousand thoughts in my head  
My mind has never been so unclear  
There's much that I've left unsaid  
I've seen the way that things should be  
We can't go on this way  
But all I know is it's hard to leave  
When you're asking me to stay

And there's no way, no way out of this life we're giving  
No way, no way out, I keep on living  
Through this life, can't you see what your life has done to me  
So it feels like there is no way, no way out, no way

My mind is filled with indecision  
I may never see the light  
So keep me close with this condition  
Can't keep you on at night  
I've seen the way that things should be  
We can't go on this way  
But all I know is it's hard to leave  
When you're asking me to stay

And there's no way, no way out of this life we're giving  
No way, no way out, I keep on living  
Through this life, can't you see what your life has done to me  
So it feels like there is no way, no way out, no way

You'll keep on living better off without me  
I'll let you go

Through this life and now you see [?] enough to set you free  
So it feels like there is no way, no way out, no way
