

Villain

Ravenscode

It's easy to start your day
When you look upon your face
And you're happy with what you see
You can't get the best of me

You know what you want
And you think it's worth fighting for
But despite what you believe

You're the villain
When you realize you're the villain
And you're not here to save all our souls
Alone here
When you realize you're alone here
Fall
They're just here to watch you fall

When you stand in the spotlight
There's something else to see
Hiding behind your eyes
You can't get the best of me

Now the words that you speak
Will betray who you are in time
You're starting to realize

You're the villain
When you realize you're the villain
And you're not here to save all our souls
Alone here
When you realize you're alone here
Fall
They're just here to watch you fall

You're the villain
When you realize you're the villain
And you're not here to save all our souls
Alone here
When you realize you're alone here
Fall
They're just here to watch you fall
Fall...
