

Been so sure since you walked through my door  
Now all these other boys could be anyone  
Over my fears, been with you for two years  
And I'm always gonna ask for another one

And then night after night  
We still good, we still fine  
I'm still yours, you still mine  
Now heaven is the earth that we're living on

Thinking way too much  
We ain't in a rush  
If you're here to stay  
Lay here where I lay  
We been hurt so much  
Don't you act so tough  
If you're here to stay  
Baby, drive my way

Let's kiss in the car and then pull up at the movies  
Leave at the start, wherever you wanna take me  
I'll go  
I'll go, I'll go, I'll go

And then night after night  
Are we good? Never mind  
I'm still yours, you still mine  
We gotta stop

Thinking way too much  
We ain't in a rush  
If you're here to stay  
Lay here where I lay  
We been hurt so much  
We been hurt so much  
Don't you act so tough  
Don't you act so tough  
If you're here to stay  
Baby, drive my way

Thinking way too much  
We ain't in a rush  
If you're here to stay  
Lay here where I lay  
We been hurt so much  
Don't you act so tough  
If you're here to stay  
Baby, drive my way
