

This shit 3D, this shit 3D, this shit 3D  
This shit 3D, this shit 3D, this shit 3D  
This shit 3D, this shit 3D, this shit 3D

From the start, I told you keep the speed on cruisin'  
Things are good, so baby, don't make it confusing now  
At the bar, when I feel pressure, I'm just human  
I'm livin' in a rush from takin' my time  
I'm askin' you to -

(Keep it light)  
Things are better movin' slow  
(Feelin' nice) Let's keep it flowin' natural  
(How can I?) I'm hoping I don't lead you on  
'Cause I don't need a boyfriend  
(Keep it light)  
Things are better movin' slow  
(Feelin' nice) Let's keep it flowin' natural  
(How can I?) I'm hoping I don't lead you on  
'Cause I don't need a boyfriend

Baby, are you catchin' my drift?  
Thought I would show that  
I can be a freak as a friend, you need to know that  
Ooh, complications, I can't wait another night  
This is your motivation (If you're patient) into mine, mmm  
As soon as I let my guard down, it's all over (All over)  
That's why I wanna take my time and get to know ya  
Wanna know what it feels like to wait a while longer  
So boy, don't put that weight on my shoulders  
For now you need to-

(Keep it light)  
Things are better movin' slow  
(Feelin' nice) Let's keep it flowin' natural  
(How can I?) I'm hoping I don't lead you on  
'Cause I don't need a boyfriend  
(Keep it light)  
Things are better movin' slow  
(Feelin' nice) Let's keep it flowin' natural  
(How can I?) I'm hoping I don't lead you on  
'Cause I don't need a boyfriend

Keep it light like LED  
UV  
Strobe light  
I'm tryna see what underneath ya robe like  
But don't call me, might be with one of my hoes right  
Ain't that the vibe?  
You all in my comments, but I don't wanna commit  
It'll be suicide if you ever posted a pic  
Get to pickin' us apart on some rotisserie shit  
Now I'm officially pissed  
I'm in yo' city dressed up-selling  
Too fresh to leave  
Stay-dressed Smitty on my Polo  
What's my giddy up?

Send yo' addy  
Girl, don't at me  
I want you to come see me live  
I seem so trippy, Avant-Garde  
I found a new drug  
It's you (You, you)
