

# Alive

Ravyn Lenae

You, you gave me some time time, some time to reflect  
True, I let you so close, I'm so close to forgetting  
I'm not regretting

You strung me along on the path  
Thank you, thank you  
You strung me along on the path  
Thank you, thank you  
I see right through you  
I do not know you babe

I can breathe, I can breathe  
I can see myself so clear  
No fears (no), no tears (no)

I feel free, can't you see  
I will not always be here  
No tears (no), no fears (no)

Ever since the day you told me she was in your life  
Something in my head done told me I will be alright  
Alright, alright

Never wasted nothing, made me careful with my time  
Something in my head done told me I was gonna shine  
So bright, I'm alright

You strung me along on the path  
Thank you, thank you  
You strung me along on the path  
Thank you, thank you  
I see right through you  
I do not know you babe
