

# Candy

Ravyn Lenae

I can't explain what I feel when I say it  
I only know when I wake up I need it  
Oh, did I hear you say I can keep it?  
Let's get this out of the way  
Stop teasing your time

I just wanna spend it like money  
I just want to take it like candy  
I just wanna stay with you baby  
I'll give you all night  
You give me all day

I watch you like a video  
I play you like a song  
On the radio, on the radio  
The one, the one, the one  
You are, you are, you are  
Never let you go, never let you go  
You can call just to say goodnight  
You can call me on a Friday night  
You can tell me that you love me  
You can tell me that you love me  
All the time

I just wanna spend it like money  
I just want to take it like candy  
I just wanna stay with you baby  
I'll give you all night  
You give me all day

I just wanna spend it like money  
I just want to take it like candy  
I just wanna stay with you baby  
I'll give you all night  
You give me all day
