

Days

Ravyn Lenae

One, two, one, two, three

You had to pick a fight at the car dealer
I had to take a plane just to fall for ya
You're driving me insane in the parking lot
You really made me think you were all I got

Me and myself got to talking
Maybe I wasn't the problem
Sometimes we fall for the sake of falling

You weren't a part of me, what did I lose?
I ran a mile away, what did I lose?
Nothing inside of me leads back to you
You said goodbye to me, what did I lose?

I only lost the days
I only lost the days
I only lost the days
I only lost the days

You're the lightning
You're the thunder
I was waiting
Waiting for summer
Loving you was a bad idea
But I won't spend my whole life
Drying my tears

God, me and myself got to talking
Maybe I wasn't the problem
Wasn't the problem
Sometimes we fall for the sake of falling

You weren't a part of me, what did I lose?
I ran a mile away, what did I lose?
Nothing inside of me leads back to you
You said goodbye to me, what did I lose?

I only lost the days
I only lost the days
I only lost the days
I only lost the days

Jealousy
Now you hate to see I found a better me
A better me
Scared of me
'Cause you hate to see I found a better me
A better me

Waking up, my eyes are open
The door to the past is closing
Waking up, my eyes are open
The door to the past is closing
