

# Deep In The World

Ravyn Lenae

Oh, oh  
Oh  
I'm moving closer

Running up on me  
You came and found me  
And control my every move  
They call you holy  
That means I'm holy  
Oh, I can live forever too

Deep in the world  
Deep in the world  
Deep in the world  
Ah  
Deep in the world  
Bionic girl  
Deep in the world  
Ooh, ah

I am your osprey  
Deep below blue seas (I can breathe underwater)  
I can breathe, I never knew  
Knowing all things (Knowing things)  
Lead me to my country  
You'll move until I know the truth  
You'll keep revolving, beginning to end  
I'll keep evolving, I'm reaching my end  
Have some more focus  
Thinking of you less (Been moving too fast)  
My ocean, if you're looking, find me

Deep in the world  
Deep in the world  
Deep in the world  
Ah  
Deep in the world  
Bionic girl  
Deep in the world  
Ah

Where I belong, all by myself, I can hear you (I can hear you calling)  
So hold me close and lead my steps to be near you  
And, oh, every wonder restoring balance (I'm getting in balance)  
I've given up control (I've, I've given up)  
How unbelievable, this would be  
Because the world keeps turning (Turning, turning)  
And the water's blue, go deeper  
Ooh-ooh, ah, oh

Deep in the world  
Bionic girl (I'm moving closer)  
Deep in the world (Ooh)  
Ah
