```
Have you
Ever seen a night like this
If you
Know that all these things exist
How do
You know where you are going
How the signs are showing
That it's true
We're not the only ones
Since everything above, it's done
If you thought that we were not the only ones
In this moment there's no questions or no lessons
It's done
If you thought that we were not the only ones
It's done
In this moment there's no questions or no lessons
It's
Talks about where we came from I don't know what to choose
(I'd rather not talk about it, I'd rather not talk about-)
We can tell [?] they don't know what we do
(Blah, blah, blah, blah)
But in this moment
There's no pull or tug
In this moment
In this moment
There's no pull or tug
In this moment
Everything above (it's done)
But in this moment theres no pull or tug
There's no pull or tug
In this moment
In this moment
There's no pull or tug
In this moment
Everything above
```
