

Light Me Up

Ravyn Lenae

Light me up (Put it out)
Light me up (Hold me down)
If you want me
Say it loud
If you love me
Say it proud
Light it up (Put it out)
Light me up (Hold me down)
If you want me
Say it loud
If you love me
Say it proud

You notice something new
I know you feel it too 'cause
They're singing Hallelu
You notice something true
I know you feel it too 'cause
I do what you want to, uh, uh, uh-uh

(Oh, I gotta know)
Gotta know what I'm waiting for
Can't wait another second more
Put your hands right here
Been waiting all night, dear

Light me up (Put it out)
Light me up (Hold me down)
If you want me
Say it loud
If you love me
Say it proud
Light it up (Put it out, put it out now)
Light me up (Hold me down)
If you want me
Say it loud
If you love me
Say it proud

I've never met before
A lover, I'm so sure you
Will open every door
Open the door, explore
Come inside
Show me you're the leader (Ah, ah, ah, ah, ah)
Switching sides
Make me a believer
Boy, I'm trusting you (I'm trusting you)
No coming down
I love the view

(Oh, I gotta know)
Gotta know what I'm waiting for
Can't wait another second more
So put your hands right here
Been waiting all night, dear

Light me up (Put it out)
Light me up (Hold me down)
If you want me
Say it loud (Ah, say it loud)
If you love me
Say it proud
Light it up (Put it out)
Light me up (Hold me down)
If you want me
Say it loud
If you love me
Say it proud
