

Lullabye

Ravyn Lenae

Once a long time ago
Way back when we were so free and so true
I was told people go
Don't wait for you to show, but I love you

Told me I was yours, it was raining
Complicated things don't need explaining
Know if you're ever lonely, I have purpose
Always two sides in any story
I found someone new

(Think of me) Sober
(Can you sleep) Over
(Take a seat, you and me) Come a little closer
(Incomplete) I hope she keeps you warm at night
(This is a-) This is a lullaby
(Think of me) Sober
(Can you sleep) Over
(Take a seat, you and me) Come a little closer
(Incomplete) I hope she keeps you warm at night, oh
(This is a-) This is a lullaby

Every so often, I wonder what you're doing
I think of callin'
I don't wanna interrupt
Is she accomplished?
A Pisces, you're a Taurus
Do you think you're fallin' in love?

Oh, I hope you
Get another chance to
Know I understand you
(And if she's just as complicated)
Be sure
Wish that I gave you more
Know that I'm always yours

(Think of me) Sober
(Can you sleep) Over
(Take a seat, you and me) Come a little closer
(Incomplete) I hope she keeps you warm at night
(This is a-) This is a lullaby
(Think of me) Sober
(Can you sleep) Over
(Take a seat, you and me) Come a little closer
(Incomplete) I hope she keeps you warm at night, oh
(This is a-) This is a lullaby
