

What did you do?  
Got me confused  
Spinning, spinning, round and round  
Sticky, sticky, off the ground  
Slipping til you let me drown  
Hate me then and love me now

You got me wondering  
Where the spunk went  
Where the funk went  
Not who I'm in love with  
You got me wondering while you roaming  
Something told me I would end up lonely

You know I cannot shake ya  
You know I cannot break ya  
You only fool me then you lose me  
Then right back I take ya  
You know we're bad together  
You don't want this forever  
Then I look stupid, call me foolish  
But I'll do whatever

What did you do?  
Got me confused  
Spinning, spinning, round and round  
Sticky, sticky, off the ground  
Slipping til you let me drown  
Hate me then and love me now

Let's play, let's pretend  
I could have my way  
What you gonna say  
If I ever walk away?  
Let's play, let's pretend  
You could treat me fair  
Maybe you won't scare me  
Maybe you would care

You know I'd wait for you  
And stay away from you  
I'd stick around when things are falling down  
I need a reason for me to leave him  
Zigzag, circus  
I don't know that sticky-icky is the potion  
(Sticky-icky, sti-sticky-icky)

What did you do? (What did you do?)  
Got me confused (Got me confused, I'm confused)  
Spinning, spinning, round and round  
Sticky, sticky, off the ground  
Slipping til you let me drown  
Hate me then you love me now  
(Why won't you love me now?)
