

Ecstasy for the free, oh, oh  
Turn the heat, can you keep up? Oh  
(Enough, you got it, come on)  
Ecstasy for the free, oh, oh  
(It's for the free)  
Turn the heat, can you keep up? Oh  
(Enough, you got it, come on)

Throw your hands high, don't think too much  
Put 'em in the sky and feel that rush  
Oh (Turn the heat)  
If we're going higher, feel my touch  
The moon is shining down on us (Ecstasy)

If you're down, then I'll take you, love  
My skin is so hot  
I can barely breathe, I can't see  
Surround me and take me up  
Let's see what you got  
Every heart, it beats over me  
If you wanna go, then I'll meet you on the floor  
Tell the DJ bye (Bye, bye)  
If you ever change your mind  
Keep it focused and reawaken  
If you wanna know, then I'll open up a door to a fever high  
I'ma tell you one more time, can't control it (I'm only taking)

Ecstasy for the free, oh, oh  
Turn the heat, can you keep up? Oh  
(Enough, you got it, come on)

Throw your hands high, don't think too much  
Put 'em in the sky and feel that rush  
Oh (Turn the heat)  
If we're going higher, feel my touch  
The moon is shining down on us (Ecstasy)

Ecstasy your next to me  
Next pussy compared to me  
No wet hurricane like it's Katrina  
On one knee but I speak prenups  
Don't avoid it, you're in my vortex  
Don't explore it inside my surface  
Fuck the morals, I just need your sex  
Boy, pull over, I just need one sec  
You put that X in ecstasy  
You the reason I'm a freak  
You be fucking up my weed  
You the oxygen I breathe in  
The only one I wanna cuff you every season  
The only nigga I believe in  
You put that X in ecstasy  
You the reason I'm a freak  
You be fucking up my weed  
You the oxygen I breathe in  
The only one I wanna cuff you every season  
The only nigga I believe in

Ecstasy for the free, oh, oh  
Turn the heat, can you keep up? Oh  
(Enough, you got it, come on)  
Ecstasy for the free, oh, oh  
(It's for the free)  
Turn the heat, can you keep up? Oh  
(Enough, you got it, come on)

(Enough, you got it)  
Can you keep up? (Enough, you got it)  
(Enough, you got it)  
Can you keep up? (Enough, you got it)
