

Ecstasy full of freedom, oh-oh-oh-oh  
Turn the heat, can you keep up?  
Oh-oh-oh-oh, and now, you got it, come on  
Ecstasy full of freedom, oh-oh-oh-oh  
It's for the free  
Turn the heat, can you keep up?  
Oh-oh-oh-oh, and now, you got it, come on

Boy, you getting tired of thinking too much?  
Put 'em in the sky and feel that rush (Oh, turn the heat)  
If we're going high, you feel my touch  
That booty shining down on us (Ecstasy)

If you're down then I'll take you, love  
My skin is so hot  
I can barely breathe, I can't see  
Surround me and take me up  
This is your God  
Every heart, it beats all on me  
If you wanna go, then I'll meet you on the floor, tell the DJ b  
ye (Bye, bye)  
If you ever change your mind  
Keep it focused, and reawaken  
If you wanna know, then I'll open up a door to a fever high  
Tell me you want one more time, can't control it (One moment 't  
il you)

Ecstasy full of freedom, oh-oh-oh-oh  
Turn the heat, can you keep up?  
Oh-oh-oh-oh, and now, you got it, come on

Boy, you getting tired of thinking too much?  
Put 'em in the sky and feel that rush (Oh, turn the heat)  
If we're going high, you feel my touch  
That booty shining down on us (Ecstasy)

(And now, You got it, can you keep up?)  
(And now, You got it)  
(And now, You got it)
