

Pain

Raw Power

I remember lying in the dark
weeks on a drip and beginning to starve
I remember feeling down and useless
stuck in a hospital bed slowly going mad
PAIN, BLOODY PAIN, IT DRIVES ME INSANE
hours under sedation through a sticky operation
a whole day sleeping and is back with the living
unable to move I'm getting too rude
can't even piss on my own feet like a stone
PAIN, BLOODY PAIN, IT DRIVES ME INSANE
two months are passed I'm still not right
in and out of hospital I can see no end
they tell me not to worry they say I'm alright
they suggesting another op and then the pain will stop
PAIN, BLOODY PAIN, IT DRIVES ME INSANE
