

Start a Fight

Raw Power

Start a fight, it's right tonight
Down in the streets they's plenty of kids
Right

This is the time, this is the price
This is the night, let's go and fight
Start a fight, we know we are right
No more discussion, it's time for action
Right

This is the time, this is the price
This is the night, let's go and fight
Start a fight, we know we are right
We are the future, we'll be the rulers
Right

This is the time, this is the price
This is the night, let's go and fight
Start a fight . . .
