RAY BLK

Ladies and gentleman
You might be missing some of the benefits
That stereo can provide
Time to lay down some serious sound

What's these questions?
What's this test?
What's this mission you're on?
What's this quest?
I weren't even feeling the vibe that I got off this text
You wanted a piece of the pie, now please off this dress
Chill out in the bits
You just wanna be out in the mix
Can't you see I'm chilling in the house?
I just wanna chill out with the flicks
You just wanna bring up what it ain't
You don't wanna bring up what it is
If I wasn't getting her the gifts
She wouldn't be getting with the drift
(Gheez)

Turn and grab it
It's that dirty savage
When I touch that pussy
It's like Merlin's magic
I'm like, girl, you got it
I'm like, girl, you have it
She's all Kylie Jenner
But I ain't her new Travis

You do things I don't like
Let's talk 'bout you and I
I'm way too drunk, too high
To think about the consequence
I don't mind, just tell me what it is
You say you'll text me back, why send mixed messages

I came to your level
Think I compromised
When you give an inch, these niggas take a mile
I been sippin' D'ussé
And it's got me hype
I might get an Uber
And pop up like surprise
I'm outside

Boys will be boys
Yeah, they all wanna fuck
Talkin' is cheap
They start gassing you up
Don't trust the game, baby
Don't fall in love
Girl, back it up
Then back in the cut

I pull up sideways
Running up on your driveway

Running up on your side piece
Yeah, I'm running up
Stop acting like you're my only option
I got a lot of DMs that I been ignoring

I came to your level
Think I compromised
When you give an inch, these niggas take a mile
I been sippin' D'Ussé
And it's got me hype
I might get an Uber
And pop up like surprise
I'm outside

Boys will be boys
Yeah, they all wanna fuck
Talking is cheap
They start gassing you up
Don't trust the game, baby
Don't fall in love
Girl, back it up
Then back in the cut

Called you anyway but I knew better
Now I'm on the way to your neighbourhood
Called you anyway but I knew better
I just wanna say I can do better
