Mine

RAY BLK

Always laugh with you
Mess around with you like a child with you
Don't wanna ground you no
Wanna build with you
In a house, settle down

You bring the fun
I'm like the sun
When I'm with you feels like I'm home
Feels we're one
Are you playing games with my heart
Like you don't know
That I'm bout you, you know
I ain't buggin I know

That you know everybody
That comes through the party
That ain't doin us no favours
I know I'm somebody
I don't need nobody
But that don't answer my question

Why
Do we fall into a pattern
I never let this happen
Oh why
Do we fall into a pattern
It's doing to much damage

I can't read your mind
I ain't tryna ask ya
You just gotta, say it
You're mine
(Your mine)

Wanna wave
Witchya main bitch
Yeah yeah I'm that
Wanna claim me as your main one
Put a name on it
Tryna run from the right one coz you pop right now
But you know it's an upgrade if we lock it down

You bring the fun
I'm like the sun
When I'm with you feels like I'm home
Feels we're one
Are you playing games with my heart
Like you don't know
That I'm bout you, you know
I ain't buggin I know
