

Never Let You Fall

Ray Boltz

As you step into the unknown
I know you're frightened
You fell alone
There's something you should understand
You are my child
You're in my hand

And I will never let you fall
This is a promise to believe
I will never let you fall further than your knees

Now I hear you praying for a child
You're so afraid they'll go wild
Don't forget my love is true
And I will carry them
Like I've carried you

And I will never let them fall
This is a promise to believe
I will never let them fall
Any further than their knees
