

# One Single Flame

Ray Boltz

In the heart of the believer  
Burns a fire for the soul  
To light the way  
And fight against the cold  
But if we all would gather  
Joining hearts in one accord  
The blaze would rise much higher  
United in the Lord

One single flame  
An everlasting light  
Shining through the darkness  
Shattering the night  
A healing fire  
Lifting up the Savior's name  
May a world of true believers  
Burn one single flame

Sometimes we put up boundaries  
With traditions from the past  
It's hard to move forward looking back  
For the Father's kingdom  
We must set aside these walls  
Standing undivided  
Let us rise up for his call

One single flame  
An everlasting light  
Shining through the darkness  
Shattering the night  
A healing fire  
Lifting up the Savior's name  
May a world of true believers  
Burn one single flame

Today and for the future  
It's burning brighter than before  
To those who come behind us  
Let us pass the torch

One single flame  
An everlasting light  
Shining through the darkness  
Shattering the night  
A healing fire  
Lifting up the Savior's name  
May a world of true believers  
Burn one single flame
