

# I Wonder Who

Ray Charles

I...I wonder who gonna be your sweet man when I've gone  
I wonder who gonna be your sweet man when I've gone  
I wonder who, baby's, gonna be carryin' my lovin' on

You know if you find, you know if you find  
You know if you find, you know if you find  
You know if you find a new love, baby, won't you please tell me  
so  
Well it might break my heart but still I wanna know

And if the flame, I say if the flame  
You hear me if the flame, don't you know if the flame  
If the flame in your heart only burns true love for me  
Well don't you let nobody turn their backs on me

You know when I, I say when I  
You know when I, I want you know when I  
When I lost my baby, I lost the best friend I ever had  
And If I don't find my baby, hey hey hey, it's gonna drive me m  
ad, yeah
