

# Love's Gonna Bite You Back

Ray Charles

Well  
Whoa, well  
Whoa, well, well  
Wait a minute

Take a look at me and you will see  
I'm at the point of no return, I am  
Grab a chair and you can hear  
A lesson that I've learned  
I thought I tamed love and I had it by the tail  
But I didn't know how to act, no  
If you don't love love like you know you should  
You know love's gon' bite you back

Oh love, don't stay away too long, no  
I feel I did somebody out there wrong, yeah  
Please believe me 'cause now I know  
What I did before, I won't do it no more, no, no

I should have been there when you were lonely  
Girl, I know I should have been there when you were cold, mhm  
I should have been your one and only  
Yes, and I should have loved you heart and soul, baby

Take a look at me and you will see  
I'm at the point of no return, girl  
Grab a chair and you can hear  
A lesson that I've learned  
I thought I tamed love and I had it by the tail  
But I didn't know how to act, no  
If you don't love love like you know you should  
You know the love's gon' bite you back

Oh love, don't stay away too long, no  
I feel I did somebody out there wrong, I did  
Please believe me 'cause now I know  
What I did before, I won't do it no more, mmm-mmm  
Well, oh, well, look here

I should have been there when you were crying  
I should have been there when you were blue, baby  
I should have been there for all the good times  
And I know I should have been there for the bad ones, too  
Ain't it true, huh?

Take a look at me and you will see  
I'm at the point of no return, well  
Grab a chair and you can hear  
A lesson that I've learned  
I thought I tamed love and I had it by the tail  
But I didn't know how to act, no  
If you don't love love like you know you should  
You know the love's gon' bite you back

And oh love, don't stay away too long, can you hear me  
I feel I did somebody out there wrong, feel like it  
Please believe me 'cause now I know

What I did before, I won't do it no more, no, no

Well, love, don't stay away too long, mmm

I feel I did somebody wrong, I did

Please believe me 'cause now I know

What I did before, I won't do it no more, no, no, no

Oh love, don't stay away too long, oh

I feel I did somebody out there wrong, wrong

Please believe me 'cause now I know

What I did before, I won't do it no more, oh, oh no, no, no, no

Well, oh well
