

# Show Me The Sunshine

Ray Charles

All I got for years of living a hurting memories  
Yeah, now  
I never get  
Only giving is my sad history  
Yeah, yeah

Now, I found you  
And I love you  
Won't you can please find a way  
Wanna show me  
Show me the sunshine  
I wanna know better your sunshine, baby  
Show me the sunshine  
And I know that won't be  
No  
There won't be no more lonely

Now, I try to live by the good book  
A good deed every day  
A good deed every day  
But somehow no sweet lover ever came my way  
Ain't nobody came my way  
Now, I beg you 'cause I need you, girl  
If you please cling to me and stay  
Whoa, then you can show  
Show me the sunshine  
I want you to show me  
Show me the sunshine  
And I know there won't be  
There won't be no more lonely rainy days

I'll just be the blues to the whole of me  
One day brought me  
It never brought nothing but trouble involved  
[?]

Whoa, there suddenly, suddenly, darling  
Ooh, you came to me  
Girl, and you changed my world with your first "hello"

Show  
Show me the sunshine  
I want you to show me  
Show me the sunshine  
And I know there won't be  
There won't be no more lonely rainy days
