

## Message from the Road

Ray Davies

Here's my message from the road  
I'm travelin' to a new time zone  
So try to call again tomorrow

Tell my kid I miss her so  
Then I'll play in shows and singin' songs  
But I miss the place where I belong  
In another town, but still I find  
That you are always on my mind  
When night turns into day  
There's another town so far away  
Waiting for me on The Great Highway

Right now you're in a far country  
With good-time gals who come and go  
You'll party with the good old boys  
Have a drink and act macho  
Out of sight and out of mind  
Always somewhere on the road  
Wherever you may go  
You'll have a place in my heart  
When night turns into day  
In your reality, I'll be just another memory
