X-ray

Ray Davies

Don't be fooled by appearances, It only shows what the world already knows Don't rely on the physical evidence Of what the x-ray pictures show Because inside every straight upright citizen a tormented Emotionally impaired psychologically damaged personality reside S And beside every crooked man stands an angel with wings And the spirit can do truly wondrous things As I watch the hump-backed man hobble down the high street I say a silent prayer for myself I was taken to the local doctor For a consultation about my physical health I heard him ask about my family - history "You see, Mrs. Davies, it might be hereditary. Yes it might" Maybe think about my family, 'cause socially could be "You were a physical deformity" ''cause the world only sees what it believes and is revealed in the x-ray It only knows what it knows, photographs, video and the printed word Yes/But there is more in this heaven on earth Than (what)/(what those scientists now and) is revealed on/in t he x-ray Every morning I got up and looked in the mirror to see if the h ump had Appeared on my back. To my disappointment I was not a freak. You see, maybe there'd be side benefits to become in a cripple, Side benefits like priority seating at football matches. And I thought "If I'm gonna be a cripple, I'll go all the way" They could photograph reality, But they can't picture your fantasy ''cause the world only sees what it believes and is revealed in the x-ray It only knows what it knows, photographs, video and the printed word Yes/But there is more in this heaven on earth Than (what)/(what those scientists now and) is revealed on/in t he x-ray ''cause the world only sees what it believes and is revealed in the x-ray It only knows what it knows, photographs, video and the printed word Yes/But there is more in this heaven on earth Than (what)/(what those scientists now and) is revealed on/in t he x-ray histěno z pishícky-akordy.cz Sponzor: www.srovnavac.cz - vyberte si pojištění online!
