

## Rewind

Ray J

Baby cancel all your plans tonight  
I got the chauffeur waiting right outside  
(Got him parked right outside)  
Don't worry babe you'll be here soon  
(I'll see you in a minute)  
So go on take a shot get in the mood  
I grab on your waist, you're making it shake, I swear that you never get tired  
Your body is hot, we're keeping it lit, we're setting the roof on fire  
She moves her hips like Shakira  
She got that swag like Rihanna  
She holding it down like Beyonce  
She tryna be my baby mama  
So back it up for me one time (One)  
Make it clap for me two times (Two)  
Roll it back baby three times (One, two, three, four)  
Don't stop baby Rewind (Rewind oh yeah)  
Don't stop baby Rewind (Don't stop oh no)  
Don't stop baby rewind  
Back it up for me one time  
Make it clap for me two times  
Run it back baby three times  
Don't stop baby rewind  
She push me to my limit  
Every time I'm in it  
At this point she saying shit and acting like she mean it  
Now I got the digits  
Uber when she's finished  
Hot like the summer  
Unwrapped it like if s Christmas  
Now she's on a mission  
Refusing to listen  
Calling her sister reporting the session  
She's on fire (She's on fire)  
Be my lighter (Be my lighter)  
I grab on your waist, I love how you're shaped, you make me want to retire  
Your body don't stop, we're keeping it lit, we're setting the roof on fire  
So back it up for me one time (One)  
Make it clap for me two times (Two)  
Roll it back baby three times (One, two, three, four)  
Don't stop baby Rewind (Rewind oh yeah)  
Don't stop baby Rewind (Don't stop oh no)  
Don't stop baby rewind  
Back it up for me one time  
Make it clap for me two times  
Run it back baby three times  
Don't stop baby rewind  
Baby bring it back  
Me and you could be a match  
I don't need you in my life I just need you on my lap  
Rat a tat, bring your body maybe you can make it clap  
The way you got me going on, I swear I'm in a trap  
Yeah yeah, your body looks right, I need you tonight I don't wanna fight,  
To these hoes I am blind, I'm holding off right I need you up in my life line  
e  
So back it up for me one time (One)
