

My Weakness

Ray LaMontagne

I love you baby
Yes, you know I do
And I need you woman
Yes, and you know that too

But you run around on me
And you treat me bad
Always talking about me
And the bad times that we had

And that ain't no way for you to treat your man
Not somebody that loves you like you know I can
Everybody got a weakness
Hey watcha gonna do
Everybody got a weakness mama
My weakness is you

I said it's you, my woman
Oh and I want my life with ya
I love you baby
Not just a now and then
But all the time
Yes until the very end

But you walk out on me
And you treat me dry
You're out the door
Not even saying so much as a goodbye

And that ain't no way for you to treat your man
Not somebody that loves you like you know I can
Everybody got a weakness
Hey watcha gonna do
Everybody got a weakness mama
My weakness is you

Every morning
When the sun does rise
I wipe the tears from my crying eyes
And I think about you
When I climb my tree
And I think about you
When I'm drinking my tea

And that ain't no way for you to treat your man
Not somebody that loves you like you know I can
Everybody got a weakness
Hey watcha gonna do
Everybody got a weakness mama
My weakness is you
Everybody got a weakness mama
My weakness is you
