

So Long Away

Ray LaMontagne

Sun was low and I awoke today
Grass is high and brown and I am down and out and gray
I am only saying that..
I am only saying that..
I am only saying I need you

Can we talk awhile something real?
No more what to think
Know what to feel
I am only saying that..
I am only saying that..
I am only saying I need you

Lord, I've been so long away
Long away
So long
Lord, I've been so long away
Long away
So long
Oh Lord, I've been so long away
So long away
So long
Yea, Lord, I've been so long away
So long
So long
