

Summer Clouds

Ray LaMontagne

Sunday, in the afternoon
I'll stay if you want me to
Hours roll like summer clouds
And summer clouds don't worry
About tomorrow

I see sparrow fly
I see starlight in your eyes
Hours roll like summer clouds
And summer clouds don't worry
About tomorrow

Will all of my words lie still as lifeless birds
Tied to Earth in tangled lines?
A soul inside you burns
The wheel, it ever turns
What is life but learning how to cry?

My love, my evening star
My heart is where you are
Hours roll like summer clouds
And summer clouds don't worry
About tomorrow
And summer clouds don't worry
About tomorrow
