

While It Still Beats

Ray LaMontagne

So ends the game, so ends the chase
There's only one way to get out of this race
There is no second place
If you don't give them every ounce
They'll cut it out, while it still beats

You close the wound I bite the blade
Lie my dying body in the shade
Take my boots and the bullets from my gun
Point me towards the sun
Point me towards the sun
