

You Thrill Me

Ray Peterson

Everytime I kiss your lips
You thrill me
And everytime I hold your hand
You thrill me

I get a tingle from my spine to my finger tips
That spreads
I just gotta say, in every way, you thrill me

Now baby, everytime that I see you walk
It thrills me
And everytime that you talk that talk
It thrills me
And I want you to know that love in my heart is true
Oh, I just gotta say, in every way, you thrill me

I get a tingle from my spine to my finger tips
That spreads
I just gotta say, in every way, you thrill me
I just gotta say, in every way, you thrill me
