

## Let's Make A Nice Memory

Ray Price

Let's make a nice memory today  
Let's say all the sweet things we always meant to say  
Don't let tomorrow find us with nothing to remind us  
Let's make a nice memory today

We've had our share of the bad times  
And though our intentions were good  
It seems that we just never had time  
To give it as much as we should

Well it's about time we got started  
Beginning by holding me close  
So we won't be caught empty hearted  
On days when we need it the most

Let's make a nice memory today...

We're lucky that nothing was broken  
Except a promise or two  
It's not the bad words that were spoken  
It's just that the good ones were few

Let's start a scrapbook of treasures  
And fill it with lost souvenirs  
For someday we'll count on these treasures  
To take us back over the years

Let's make a nice memory today...
