

Slow Down

Ray Scott

I've been living in this fast lane
A little separated from the past
I spent a lot of time missing ones I loved best

I got a guitar for a briefcase
I do my business wearing boots
Ain't many cities in this country where I ain't seen the moon

Think I need to slow down
Take a minute, take a look around
Gonna be wishin I hadn't missed out if I don't slow down

Got a little niece in carolina
Just the other week she turned four
I ain't been to one birthday party since she was born.
I don't mean to come off here complaining
Man this life's a rolling dream
I love the feeling of these big wheels under me

Think I need to slow down,
Take a minute, take a look around
Gonna be wishin I hadn't missed out if I don't slow down

Think I need to slow down,
Take a minute, take a look around
Gonna be wishin I hadn't missed out if I don't slow down
(I wonder what I'm missing now)

Slow Down
