

Take A Drink

Ray Scott

Another straight vodka hangover
Another day I feel like shit
It's been so long since I've seen sober
I've forgotten what it is

But I've known since I was a young'n
Growin' up with dear ol dad
I've got some damn dark days a'comin
If this gets outta hand

When I dance I know I'm dancin' with the devil
I've been round that sun enough to understand
That sometimes a man will take a drink
And sometimes... the drink will take the man

A drink might take that damned old edge off
Or it might be what puts that edge on
It's a fine line between 2 drinks, man
And 3 far gone... yes, it is

When I dance I know I'm dancin' with the devil
I've been round that sun enough to understand
That sometimes a man will take a drink
And sometimes... the drink will take the man
...
