

Valley Like This

Ray Scott

Another one of those days
One of those days like yesterday
And the one before
Another alarm clock I should've ignored

It's a chemical hell
I'm sinkin' way deeper down in the well
The water's tepid and brown
There's a light at the top but I can't see it now

Black clouds blockin' out my sun
Cold rains pourin' out of each one
I know the top of the mountain exists
But you can't see the peak from a valley like this

Ain't gonna cry for help
Don't wanna bring that kinda shame down on myself
So I just face it alone
Nobody judges me if nobody knows

Can those people be saved?
Those who take such secrets with them to the grave
And is there even a chance
I'll feel the way I used to again?

Black clouds blockin' out my sun
Cold rains pourin' out of each one
I know the top of the mountain exists
But you can't see the peak from a valley like this

Black clouds blockin' out my sun
Cold rains pourin' out of each one
I know the top of the mountain exists
But you can't see the peak from a valley like this
