

# You Wouldn't Know It Now

Ray Scott

She'd always hate  
Me working late  
She used to miss me  
You wouldn't know it now

She'd get that look in her eye  
And we'd be up all night  
She used to want me  
You wouldn't know it now

There was a time she called me Baby  
When I was all she thought about  
My touch used to drive her crazy  
She used to love me...  
You wouldn't know it now

These arms of mine  
Would hold her when she cried  
She used to need me  
You wouldn't know it now

She'd always say  
There was no way she could live without me  
You wouldn't know it now

There was a time she called me Baby  
When I was all she thought about  
My touch used to drive her crazy  
She used to love me...  
You wouldn't know it now

She's out there on that floor with him  
More in love than she's ever been  
She dances by and just turns her head  
It's like we never even met

Once upon a time  
The whole world was mine  
Yeah, I used to have it all  
You wouldn't know it now

Ahh, you wouldn't know it now
