

Road Widow

Ray Stevens

She always hides a note that says "I love you" inside my bag whenever I go away.
And when I check in there's always a message waitin' just lettin' me know everything at home's okay.

Road Widow you know I'm thinking of you. Wishin' I didn't have to leave you all alone.
Maybe someday it won't be this way but right now the show goes on
And just about the lovin' you'll have when I get back home.

Well you know she is a liberated woman and she's free to choose whatever she wants to be.
And she knew I was a traveling man when she saw me coming.
But still instead of all the others she chose me.

Road Widow you know I'm thinking of you. Wishin' I didn't have to leave you all alone.
Maybe someday it won't be this way but right now the show goes on
And just think of the lovin' you'll have when I get back home.

Road Widow you know I'm thinking of you. Wishin' I didn't have to leave you all alone.
Maybe someday it won't be this way but right now the show goes on
And just about the lovin' you'll have when I get back home.
