

# Take The World

Ray Toro

The trouble today is separated hearts  
Do it for yourself, just walk away  
The choices we make define us, who we are  
Take a stand, don't ever take a fall

So get ready  
To fight for what is ours  
We can take the world  
And make it our own  
Let's get ready  
To fight for what is ours  
We can take the world  
And make it our own

Our children today look on with open arms  
Ready to forgive our past mistakes  
The walls we will break, together we march on  
We won't stop until we have it all

So get ready  
To fight for what is ours  
We can take the world  
And make it our own

Let's get ready  
To fight for what is ours  
We can take the world  
And make it our own

So get ready  
To fight for what is ours  
We can take the world  
And make it our own

Let's get ready  
To fight for what is ours  
We can take the world  
And make it our own

So get ready  
To fight for what is ours  
We can take the world  
And make it our own

Let's get ready  
To fight for what is ours  
We can take the world  
And make it our own
