

# Alien

RAYE

It feels really nice to get deep and down with you  
When I move with you, I see stars moving and I won't stop  
The pursuit of it  
Cause I'm new to this  
Uh, I'm not used to this, see my home planet  
That I come from is another world but I found you  
Yeah, I found you

Cause I, I do not know this place  
But why do I feel so safe out here  
When I do not know this place?  
I'm feeling so lost in space round here  
I'm feeling so lost in space  
I think it's gonna be OK  
When I see your face  
When I see your face

Alien, alien  
Don't worry about where we go  
I'll beam you up, you bring me down  
Don't care if all the creatures know  
Alien, alien  
I love the way you move  
So graceful in your melodies  
And everything I do

And it's OK if I glow  
Cause there's no place like home

Take a trip to this on my wishlist  
All your promises, is that OK?  
Wanna show you space  
Untraveled space  
Wanna hear your stories while you travel days  
Wanna tell you mine, so don't go away  
If you want this  
Do you want this?

Cause I, I do not know this place  
But why do I feel so safe out here  
When I do not know this place?  
I'm feeling so lost in space round here  
I'm feeling so lost in space  
I think it's gonna be OK  
When I see your face  
When I see your face

Alien, alien  
Don't worry about where we go  
I'll beam you up, you bring me down  
Don't care if all the creatures know  
Alien, alien  
I love the way you move  
So graceful in your melodies  
And everything I do

And it's OK if I glow

Cause there's no place like home

You're extra, I'm extraterrestrial  
I think our worlds are symmetrical  
You can be my angel, I'm celestial  
Bulletproof love over money, I'll invest in you  
Have a heart to heart before I have a chest to chest with you  
Don't let nothing but me get on top of you, girl, what's stressing you?  
Yeah, I swear every new chapter's like an old page  
I think I'm way too old for my old ways  
No way I'm gonna be with you  
If I'm the alien, you alienate  
Yeah, food for thought, you should take me away  
I don't need space and it's crazy, cause it's crazy in space  
I don't know why you don't know why  
I call the streets home sweet home in the night, night  
Yeah, and even though we didn't plan it  
This is Venus vs. Mars, I'm just fighting for my planet

Alien, alien  
Don't worry about where we go  
I'll beam you up, you bring me down  
Don't care if all the creatures know  
Alien, alien  
I love the way you move  
So graceful in your melodies  
And everything I do

And it's OK if I glow  
Cause there's no place like home
