

Black Mascara.

RAYE

Once you see my black mascara
Run from you into my mama's hands
You selfish man
You'd understand (Understand what you)

Once you see my slick eyeliner
Blend into my black designer
Bags under my eyes
Oh how'd you try to understand?
What you done (To me)
What you done (To me)
What you

Done to me
You done to me
You done to me
You're done to me
You're done to me
You're done to me
You're done to me
You're done to me
You made your bed (Made your bed)
Lied your lies (Lied your lies)
And fucked my mind up
Try to understand just what you

Done to me
You done to me
You done to me
You're done to me
You're done to me
You're done to me
You're done to me
You're done to me
You made your bed (Made your bed)
Lied your lies (Lied your lies)
And fucked my mind up
Try to understand just what you

Now you see my black mascara
Run from you into my mama's hands
You selfish man
Do you understand
How it feels
And what you done?

(Done to me?)
You done to me?
You done to me?
You're done to me
You're done to me
You're done to me
You're done to me
You're done to me
You made your bed (Made your bed)
Lied your lies (Lied your lies)
And fucked my mind up

Try to understand just what you

Try to understand just what you

(Fucked my mind up, fucked my mind up, fucked my mind up)

Try to understand just what you

Try to understand just what you

Understand

Do you understand?

Tripped on the throttle, sipped on bottle, serious

Tell them hoes to be minding they business

Heart broke but I'm still looking like millions

Six shots down so I can't feel this

Talking my ear off, cocaine

Got a bitch gassed up, propane

Now I can't come down or it pours

Oh, underneath my eyes how it rains

There's clouds up high

But there's stars on the ceiling of the Royce

I hear this pain drown every other noise

You talk to me dumb like you didn't have a choice

I'm here now, fucked up thinking this why

I'm out here sinking in these dark nights, nights ah yeah

Look what you've done to me

You've done to me, my baby

Look what you've done to me

You've done to me, my lover

Just what you've done to me

You've done to me

You've done to me

You've done to me

You've done

Try to understand just what you

Try to understand just what you

(Do you, oh, do you understand how it feels?)

Try to understand just what you

(Look what you've done to me)

(You've done to me, my baby)

Try to understand just what you

(Do you, oh, do you understand how it feels and what you've done?)

What you've done
