

# Change Your Mind

RAYE

And I wished that I was drunk  
So I could blame it on the wine  
Wished that I was high  
So I could take it  
But there's nothing in my veins  
To steal the pain that comes around  
On Friday nights with plus one invitations

You once said that I was perfect  
And I was just wondering  
What changed your mind

Same, feel the same  
This is day two but I know you don't  
Everybody wants what they can't have  
You can always hold me so you never will

How do I heal with all of my demons  
When my angel left me alone?  
You used to let me share your halo  
Let me share your halo

I'm so low down  
I'm so low down  
Got my cheek pressed to the floor, floor, floor  
Then my girls had to bail me off right now

Lo-lo-low, lo-lo-low  
Lo-low, low, low  
This is low, this is low as I can go  
I can go

Oh, I wished that I was drunk  
So I could blame it on the wine  
Wished that I was high  
So I could take it  
But there's nothing in my veins  
To steal the pain that comes around  
On Friday nights with plus one invitations

But I still have to ask you  
After all this time  
You said I was perfect  
What made you change your mind?

No, no, you don't  
Care that I'm crying and I know you won't  
Get how it feels to be all alone  
I know you'll let me go  
Do you know it shows?

How do I heal without the conclusion?  
And I need to fix what you broke  
You used to let me share your halo  
Let me share your halo

I'm so low down

I'm so low down  
Got my cheek pressed to the floor, floor, floor  
Then my girls had to bail me off right now

Lo-lo-low, lo-lo-low  
Lo-low, low, low  
This is low, this is low as I can go  
I can go

I wished that I was drunk  
So I could blame it on the wine  
Wished that I was high  
So I could take it  
But there's nothing in my veins  
To steal the pain that comes around  
On Friday nights with plus one invitations

I still have to ask you  
After all this time  
You said I was perfect  
What made you change your mind?

Ooh, whatever you do  
I know I'm gonna miss you  
I know I'm gonna miss the shit out of you, baby  
Ooh, wherever you are  
I miss you  
I wish I was right there with you

Whatever you do  
I wish I was with you  
(I know I'm gonna miss you)  
I know I'm gonna miss you

Wish I was right there  
I wish I was right  
In your arms tonight  
Would you hold me like you used to in your bed  
With your arms around me?  
Sleeping alone  
I wish I was home  
I wish you were home
