RAYE

Come on, get it right now  
Oh woah  
Come on, get it right now, now

So baby come on, get it right now, now, now  
I can take you higher, then loud, loud, loud  
I'm bad for you love, but I'm your cigarette  
So baby come on, get it right now, now, now  
All up on my body, boy go down, down  
I'm bad for you love, but I'm your cigarette

So go on and smoke that shit baby  
I know that you know I'm your favourite  
Think she's what you want but she ain't it  
Watching how my waist whine  
Tryna touch my waistline  
Know I like to take time with it  
Tell me you can't look away, I get it  
Do I need you? Am I sure? Not really  
So you might never get to see me naked, nah-nah-nah

Bad for you, love that is worth the deal is  
You can't get enough of this  
Said you tryna hit and quit, but you need me like a cigarette

So baby come on, get it right now, now, now  
I can take you higher, then loud, loud, loud  
I'm bad for you love, but I'm your cigarette  
So baby come on, get it right now, now, now  
All up on my body, boy go down, down  
I'm bad for you love, but I'm your cigarette

How do you want it, at yours or mine?  
I'm too yours to decline  
You should go tell everybody on mind  
Don't keep that shit secret, no no  
Baby love it when I do that, I know  
You're too pretty to be rolling solo  
If you like it, you can take a photo  
Don't quit, I know you want me like a bad habit  
I'm your nicotine and you're the addict  
All yours, ooh

So baby come on, get it right now, now, now  
I can take you higher, then loud, loud, loud  
I'm bad for you love, but I'm your cigarette  
So baby come on, get it right now, now, now  
All up on my body, boy go down, down  
I'm bad for you love, but I'm your cigarette

Cock it up pon di thing when you want  
Drive by and you don't know mi style  
Ride up, call me Don in my sky

Loving how I set from a distance boy  
Big tings that go on first class, we are fly

Fly, fly, fly  
Got me high you know  
Money affi run, affi party low  
Drop it one time then me climb up  
Tings affi run 'til the morning  
Higher than on mi plane

So baby come on, get it right now, now, now  
I can take you higher, then loud, loud, loud  
I'm bad for you love, but I'm your cigarette  
So baby come on, get it right now, now, now  
All up on my body, boy go down, down  
I'm bad for you love, but I'm your cigarette  
So baby come on, get it right now, now, now  
I can take you higher, then loud, loud, loud  
I'm bad for you love, but I'm your cigarette
