If you made it this far
I just want to say thank you from the bottom of my heart for listening
"Thank you" to my dear Mike Sabath for E.Ping this record with your entire soul
To Felly for engineering and all the emotional late nights
To my mum and my beautiful sisters, to Dad and Tia
I just couldn't have done this without you
I've waited 7 years for this moment
Finally, my 21st century blues is now ours
Forever
'Til next time. Lots of love. Raye
